# Fighting pollution caused by waste and plastics : a collective effort to protect freshwater and oceans

Organized by : French embassy in Indonesia, Indonesian government, INBO & French Solid Waste Partnership

Solid waste impacts watersheds from rivers to the sea, where it is washed away. Waste management and interception of waste being dispersed to the environment are key to reducing water pollution.

## List of speakers [TBC]

**Part 1: Moderated by Corinne Trommsdorff**, Executive Director French Solid Waste Partnership

**Ms. Barbara Pompili**, Chair of the OECD Water Governance initiative and Former French Minister for the Environment

**Mrs. Nani Hendiarti**, Deputy Coordinating Minister

**Julie Reynaud**, Senior officer "studies & training for water professionals" INBO

**Dr. Pinida Leelapanang**, Chief Environmental Management Officer, Mekong River Commission (MRC)

**Louise Rousseau**, French Ministry of foreign affairs

**Ms. Vinda Damayanti**, Director for Reduction Waste Ministry of Environment and Forestry Indonesia

**Anne-sophie Leclère**, Deputy General Director, Eau de Paris

**Sabrina Sebaihi**, French Member of Parliament, and Vice-president of the French Solid Waste Partnership

**Ms. Vinda Damayanti**, Director for Reduction Waste Ministry of Environment and Forestry Indonesia

**Louise Rousseau**, French Ministry of foreign affairs

**Part 2: Moderated by Didier Perez**, Expert

**Ms. Rofi Alhanif**, Assistant Deputy for Waste and Wastewater management

**Karyanto Wibowo**, Director Sustainable Development Danone, Chair of PRAISE & Supervisory board of the Indonesia Packaging Recovery Organisation

**Dr. I Komang Gede Sanjaya**, S.E., M.M, Tabanan Regent

**Dadang Cahya Rusdiana**, Head Unit of Penanganan Sampah Badan Air, Dinas Lingkungan Hidup Provinsi DKI Jakarta

**M. Pak Victor Nikijuluw**, Konservasi Indonesia's Senior Adviser

**Lionel Goujon**, Head of the water and sanitation division AFD

**Ms. Vinda Damayanti**, Director for Reduction Waste Ministry of Environment and Forestry Indonesia

**Louise Rousseau**, French Ministry of foreign affairs

**Ms. Vinda Damayanti**, Director for Reduction Waste Ministry of Environment and Forestry Indonesia

**Louise Rousseau**, French Ministry of foreign affairs

**Ms. Vinda Damayanti**, Director for Reduction Waste Ministry of Environment and Forestry Indonesia

**Louise Rousseau**, French Ministry of foreign affairs

**Louise Rousseau**, French Ministry of foreign affairs

Plastic is the most common type of waste found in aquatic environments. The ongoing work on the plastic treaty invites us to think about reducing its use, but also about improving the management of plastic waste. Collaboration between managers of watersheds, coastal and maritime areas and waste managers is necessary to protect aquatic environments biodiversity, the quality of water resources and human health, as well as local economic development.

The first part of the session will provide a global perspective on waste management and its pollution impacts, from waterways to coastal ecosystems. The second part will focus on the Indonesian context.

## 23 May 2024 / 2:00-4:00 p.m.

Space France hosted by the French Water Partnership
